PRAVEEN KOPPAD

SENIOR TECHNICAL SUPPORT / IMPLEMENTATION ENGINEER | FINTECH & PAYMENTS

Bengaluru, India | +91 9008002014 | koppad.praveen100@gmail.com

PROFESSIONAL SUMMARY

Technical Support & Implementation Engineer with 4.5+ years of experience in enterprise SaaS, fintech and payments. Owns Optum technical support and client onboarding from project inception, including tenant implementations, P1/P2 incident coordination, RCA and 24x7 operations. Across Zeta and VSM Infotech, resolved 773+ support tickets, handled 80+ P1/P2 incidents and authored 20+ SOPs. Skilled in SQL, REST APIs, Kafka, Linux, monitoring tools, Jenkins and cross-team delivery.

CORE COMPETENCIES

Client Onboarding & Tenant Implementation | L2/L3 Production Support | P1/P2 Incident Management | Root Cause Analysis (RCA) | SLA / FRT Management | 24x7 On-call & Shift Planning | Runbook Execution | SOP Development | Knowledge Transfer | Stakeholder Coordination

PROFESSIONAL EXPERIENCE

ZETA | Technical Support & Implementation Engineer — Jul 2025 - Present

OPTUM | Enterprise Payments & Production Support (Current)

- Owned Optum support and implementation operations from project inception, onboarding clients to Zeta, coordinating new-tenant setup, configuration and go-live readiness with Product, Engineering and DevOps.
- Implemented and validated tenant configurations, API/authentication access and onboarding workflows; investigated setup issues and coordinated cross-team fixes through production handover.
- Resolved 173+ production support tickets with 100% SLA adherence and an average first-response time of approximately 3 minutes.
- Handled 20+ P1/P2 incidents, driving impact assessment, technical triage, stakeholder updates, Engineering escalations and recovery follow-through in a 24x7 environment.
- Performed 10+ incident root-cause analyses (RCAs), correlating SQL records, REST API responses, transaction/trace IDs, Kafka event flows and application logs to identify failure points.
- Created 15+ SOPs and troubleshooting guides covering recurring incidents, technical investigations and operational runbooks; delivered KT sessions and mentored new joiners.
- Owned cross-team coordination for operational runbook execution, driving dependencies, execution tracking and post-action validation with Engineering and DevOps.
- Contributed to 2 Jenkins-based automation workflows for operational support activities and repeatable task execution.
- Designed the full-year 24x7 shift roster for a seven-member team during the team lead’s absence, balancing lean staffing, weekly coverage and shift rotations.
- Investigated payment, authentication and application issues across production and UAT, including IAM/RBAC access, token lifecycles and reporting workflows, using SQL, Postman, Grafana, Metabase and OpenSearch/Kibana.

PLUXEE | Application & Production Support (Previous)

- Resolved 200+ application and production support tickets involving customer-reported failures, backend services and payment-related investigations.
- Handled 10+ P1/P2 incidents, coordinating cross-functional investigation, escalations and customer updates to support timely resolution.
- Authored 5+ SOPs and owned ticket assignment and workload coordination across teammates, helping prioritize critical issues and maintain support continuity.
- Contributed to the team’s Best Team Award through ownership of ticket allocation, effective team coordination and critical-incident support.

VSM INFOTECH PVT. LTD. | Application / Technical Support Engineer Apr 2022 - Jun 2025

- Resolved 400+ application and production support tickets over three years, diagnosing enterprise client issues across SQL databases, Unix/Linux, REST APIs and backend services.
- Managed 50+ P1/P2 incidents, driving technical triage, log analysis, cross-team escalations and restoration of customer-impacting services.
- Maintained 100% SLA compliance and delivered a 30% improvement in SLA performance across support operations.
- Received Outstanding Individual Performance recognition twice in three years for dependable incident ownership and service delivery.
- Investigated payment, application and API failures; reproduced defects, documented root-cause findings and collaborated with Engineering on permanent fixes.
- Supported client onboarding, 24x7 on-call operations and stakeholder communication, coordinating incident follow-through and clear support documentation.

TECHNICAL SKILLS

Production Support: Incident & Problem Management, P1/P2 Triage, RCA, Runbooks, ITIL-Aligned Processes, SLA/FRT, Jira, Confluence, 24x7 On-call

APIs & Data: SQL, REST APIs, JSON, Postman, Metabase, Tenant Setup & Validation, Client Onboarding, Backend Investigation, API/Payment Troubleshooting, IAM/RBAC, Authentication Tokens

Monitoring & Event Systems: OpenSearch, Kibana, Grafana, Kafka, Log Analysis, Transaction/Trace Correlation, Superset

Systems & Automation: Unix/Linux, Jenkins, CI/CD, Git, Python, Java

EDUCATION

MSc, Mechatronics Systems Engineering | Kingston University London | Merit | 2020 - 2022

B.Tech, Mechanical Engineering | B.L.D.E.A.'s Dr. P.G. Halakatti College of Engineering & Technology, Bijapur | 2015 - 2019
